

Pragnya Yelisetti

Computer Science Engineering · B.Tech 3rd Year · Expected Graduation: May 2028

pragnayelisetti@gmail.com | +91 9494389676 | linkedin.com/in/pragnayelisetti | github.com/Pragnayelisetti

SKILLS

- Languages** : C, C++, Java, Python, JavaScript
- Frameworks** : React.js, Node.js, Express.js, FastAPI, REST APIs
- Databases** : MySQL, MongoDB
- Core CS** : Data Structures & Algorithms, OOP, DBMS, Operating Systems
- Tools** : Git, GitHub, Linux, VS Code, JWT Authentication, Groq AI

EXPERIENCE

Frontend Developer Intern | Meridian Data Labs

Internship

- Developed **10+ responsive React.js UI components** using modern **JavaScript (ES6+)**, improving cross-device consistency and reducing reported UI defects by **30%** during testing cycles.
- Architected **reusable, component-based UI modules** integrated with **5+ REST API endpoints**, cutting redundant code by **40%** and accelerating feature delivery across 3 application modules.
- Collaborated with a **cross-functional Agile team** of 6 developers and stakeholders across **bi-weekly sprints**, resolving **20+ UI bugs** and shipping **4 new features** within deadlines.
- Maintained **100% Git-based version control discipline** across all contributions, participating in **15+ code reviews** and reducing post-merge conflicts by following structured branching workflows.

TECHNICAL PROJECTS

PrepPilot

React.js · TypeScript · Node.js · Express.js

- Engineered a **live, video-call mock interview** module with an AI interviewer, driving real-time camera/microphone streaming and state sync between a **React.js + TypeScript** frontend and a **Node.js/Express.js** backend.
- Implemented **proctoring safeguards** — continuous webcam/mic monitoring and enforced fullscreen mode with violation detection — to preserve interview integrity end-to-end.
- Built an automated **post-interview performance report** pipeline that scores responses and generates structured, answer-grounded feedback for candidates.

CareerVerse AI

React.js · FastAPI · MongoDB · Groq AI · JWT

- Architected a full-stack **AI-powered career & scholarship platform** using **Groq AI (Llama 3.3 70B)**, serving 4 student segments (post-10th, post-12th, undergraduates, postgraduates) with personalized career roadmaps and scholarship matching.
- Engineered a secure **FastAPI + JWT + MongoDB** backend and integrated **OpenStreetMap/Overpass APIs** for real-time, geo-filtered college and institution discovery.
- Crafted 6+ modular **React.js** components — AI chatbot counsellor, skill profiler, and scholarship matcher — forming a complete guided decision system for every study stage.

Student Course Registration & Report Generator

React.js · Node.js · Express.js · MongoDB

- Built a production-ready **full-stack** application with **RESTful APIs** supporting 5+ modules — course registration, enrollment tracking, student management, and automated PDF report generation.
- Designed a **normalized MongoDB schema** with optimized queries, cutting redundant reads; implemented a **component-based React.js UI** with low-latency Express.js routing for seamless client-server communication.

EDUCATION

Aditya University, Surampalem, AP	B.Tech – CSE CGPA: 9.38 / 10	2024 – May 2028
Aditya Junior College, Kakinada, AP	State Board (MPC) 988 / 1000	2022 – 2024
Mary Immaculate High School, Samalkot, AP	BSEAP 582 / 600	2021 – 2022

CERTIFICATIONS

Oracle Certified Foundations Associate — Oracle	MOS: Excel (Office 2019) — Microsoft
Building with Claude API — Anthropic	PL-900: Power Platform Fundamentals — Microsoft
Claude Code in Action — Anthropic	SQL (Intermediate) — HackerRank
Introduction to Model Context Protocol — Anthropic	

ACHIEVEMENTS

- Ranked in the **Top 270** among participants in the **Women Who Master** Hackathon.
- Solved **900+ problems** and earned the **200 Days Badge** on **LeetCode**.
- Attained a **900+** rating on **Codeforces**.
- Earned **2-Star** rating with **400+ problems** solved on **CodeChef**.
- Achieved peak rating of **1700+** with **4600+ EXP** and the **Achiever Badge** on **Code360**.
- 4-Star** in SQL & Java; **3-Star** in C, C++, and Python on **HackerRank**.

EXTRACURRICULAR ACTIVITIES

- Competed in the **Google Sprint Hackathon**, collaborating under deadline-driven conditions to design and present a working solution within 24 hours.
- Appointed **Face of Internshala at Aditya University** — drove campus-wide internship awareness campaigns and mentored **100+ peers** on career development and internship application strategies.
